Loading 2 x
extension ladders
one beside the other

Maximum loading
capacity up to
132 lbs.

G2000 HARRIER

Loading and unloading of ladders is easier and more risk-free than ever with the G2000 Harrier through the hydraulic assistance system minimizing health and safety issues

Created in Italy by Gentili

Gentili has been supplying customers world-wide with the G2000 – a product range which has gained a reputation for its robustness and quality since its launch over 25 years ago, when the first hydraulic ladder rack for LCVs was designed and launched by Gentili.

As an ISO 9001 company, Gentili have a firm commitment to continuous improvement. The G2000 series has been constantly updated and our new G2000 Harrier is the most recent dynamic enhancement to the product line.

As with all previous series of G2000 ladder racks, also the Harrier is designed and manufactured in Italy and brings together the heritage of more than 50 years of knowledge and experience in vehicle ladder rack manufacturing.

The G2000 Harrier is designed to utilize the original roof mounting points. The design improvements bring together quality and style with a touch of Italian flair.

Why fit anything else?

Fit the best, fit the original.

Watch the
G2000 Harrier

DESIGNED WITH ERGONOMICS IN MIND

Configuration with 2 x G2000 Harrier loading up to 4 x ladders and 264 lbs.

The G2000 Harrier offers a fully assisted ladder mounting and deploying system, therefore becoming the ideal partner for customers looking to equip their vehicles with a safe and easy to use solution.

Due to its design, the G2000 Harrier offers an easy glide, single person operation. All actions are carried out by the operator with their feet on terra firma at all times, being equipped with a precision engineered hydraulic system.

Through 25 years of active use and continual improvement the G2000 Harrier is the most advanced and safest system of its type available.

MAXIMUM FLEXIBILITY

The G2000 Harrier

can load extension ladders and step ladders up to 40 feet long.

The new version of the G2000 Harrier has added features to further improve the safe transport of ladders when the vehicle is moving.

The two retainer loops can be moved forwards and backwards independently, to suit different ladder lengths, to keep the ladder in the correct position in relation to

the vehicle roof. They are covered with hard wearing rubber, to protect them from the abrasion caused by the ladder rungs.

The front and rear horizontal bars have adjustable, impact resistant ABS plastic side retainers, to contain the ladder laterally when the vehicle is moving.

UTILITY SERVICE TRUCK

Universal ladder rack for ANY ladder up to 132 lbs. ensuring ergonomic operations thanks to its hydraulic assistance.

1 X G2000 HARRIER + 1 LADDERS OR 2 LADDERS (by stacking)

Easy and safe access to your ladders without blocking side doors or tool boxes. Keep your boots on the ground! Access ladders safely without stepping on bumper or steps to retrieve.

2 X G2000 HARRIER + 2 LADDERS OR 4 LADDERS (by stacking)

BOX TRUCK / KUV / ENCLOSED BODY

Universal ladder rack for ANY vehicle up to 11 feet ensuring ergonomic operations thanks to its hydraulic assistance.

1 X G2000 HARRIER + 1 LADDERS OR 2 LADDERS (by stacking)

Optimize space utilization by taking advantage of even high and hard-to-reach rooftops.

2 X G2000 HARRIER + 2 LADDERS OR 4 LADDERS (by stacking)

Maximize rooftops utility with 2 x G2000 Harrier ladder racks that allow loading up to 2 x ladders by stacking and up to 132 lbs. on each ladder rack.

PICKUP TRUCK WITH RACK

Any truck with a rack installed on the rear bed can install a G2000 ladder rack.

1 X G2000 HARRIER + 1 LADDERS OR 2 LADDERS (by stacking)

The G2000 ladder racks allow ergonomic handling of heavy ladders by loading / unloading to the roof / ground without the need to climb on the truck.

2 X G2000 HARRIER + 2 LADDERS OR 4 LADDERS (by stacking)

The G2000 ladder racks provide ergonomic access to ladders that are unloaded close to the ground and do not require lifting them above the waist while handling.

PICKUP TRUCK WITH BODY

Any truck with a body installed in the rear can install a G2000 ladder rack.

1 X G2000 HARRIER + 1 LADDERS OR 2 LADDERS (by stacking)

With the G2000 series, health risks to the back and shoulders are dramatically reduced when loading / unloading long and heavy ladders because the operations are assisted by a hydraulic assistance system reducing the effort required to a minimum.

MAXI
G2000 Created in Italy by Gentili

MAXI

G2000

Created in Italy by Gentili

*The **G2000 Maxi** is the latest addition to our ladder rack range, designed and manufactured at our state of the art facility in Italy. This new product has been designed to securely store two ladders at the same time, whilst still offering the same operational smoothness and safety as our G2000 Harrier single ladder rack.*

Watch the
G2000 Maxi

The G2000 Maxi ladder racks maximize efficiency by being able to load / unload 2 x ladders side by side on a single ladder rack and getting them both to the roof / ground in seconds.

Two ladders can be mounted side by side. Two adjustable ladder retainers ensure that the ladders are held in place during transit. Securing straps hold the ladders firmly against the ladder rack at all times.

Sideways movement of the ladders being carried is stopped by the adjustable pair of load stops, fitted front and rear.

UTILITY SERVICE TRUCK

Universal ladder rack for ANY ladder up to 132 lbs. ensuring ergonomic operations thanks to its hydraulic assistance.

1 X G2000 MAXI + 2 LADDERS SIDE BY SIDE

Easy and safe access to your ladders without blocking side doors or tool boxes. Keep your boots on the ground! Access ladders safely without stepping on bumper or steps to retrieve.

BOX TRUCK / KUV / ENCLOSED BODY

Roof height is no longer an issue since the ladder is brought to the ground with the G2000 Maxi ladder rack and its hydraulic assistance system.

1 X G2000 MAXI + 2 LADDERS SIDE BY SIDE

PICKUP TRUCK WITH RACK

Any truck with a rack installed on the rear bed can install a G2000 ladder rack.

1 X G2000 MAXI + 2 LADDERS SIDE BY SIDE

PICKUP TRUCK WITH BODY

The G2000 Maxi ladder racks handle 2 x ladders with one ergonomic operation.

1 X G2000 MAXI + 2 LADDERS SIDE BY SIDE

ERGONOMICS ACCESS TO LADDERS

*NO lifting,
Dramatically reduced accidents,
Dramatically reduced injuries*

UNIVERSAL INSTALLATION

*Fitment for vans up to 11 feet tall
– vans, truck, KUVs, trailers*

HEAVY AND LONG LADDERS

*Workers can easily load and
unload heavy ladders because of
the hydraulic lift system*

DURABLE MATERIALS

*main parts made from anodised aluminium,
offering maximum protection from corrosion
and allowing for minimal maintenance.
Stainless steel parts offer strength and
extended longevity.*

HIGH ROOF CONCEPT

*Never lift your heavy ladder
above the waist line because of
the unique vertical loading style
of the Gentili Drop Down Ladder
Rack*

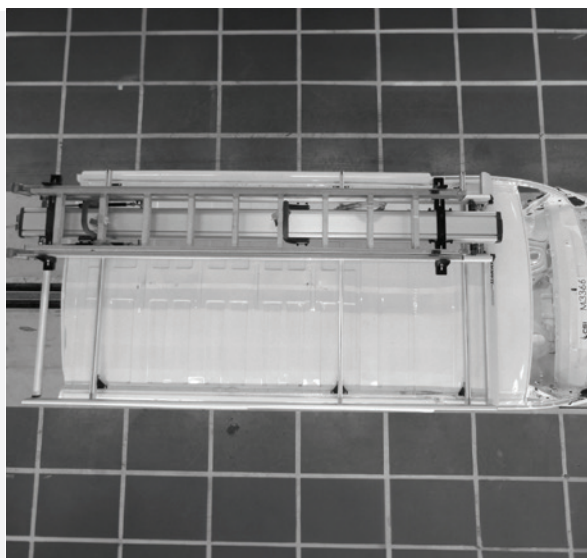

ANY LADDERS

*Fits any extension ladder
and step ladder up to 40'
long. Weight capacity is
132 lbs.*

SECURE

*new profile parts are designed to
be safe, strong and low profile;
reducing both wind noise and
reducing impact
on fuel consumption.*

TÜV GS CRASH TEST

*Gentili takes safety seriously – and don't just take
our word for it; the G2000 range is TÜV tested
and certified and has been crash tested to a 20g
force on a vehicle shell.
When we say it is safe, we mean it.*

ACCESSORIES

LADDER LOCK & HOLD DOWN - BLCG2HR

Available as an accessory for the G2000 Harrier

PATENT No 0000281312

The stainless-steel Ladder Lock & Hold Down holds ladders without using ratchet straps or another form of straps. The height is adjustable between 1" to 9.1" to accommodate multiple ladders. The Ladder Lock & Hold Down is padlock capable to help prevent theft.

★ Padlock not supplied

SPOILER KIT

Available as an accessory for the G2000 Harrier

Made of anodized aluminum, the Spoiler Kit makes the free part of the roof, the half without the ladder rack, usable for storing long and bulky material using the rear roller to facilitate loading/unloading operations. The side bar can be used as a fastening point and the front spoiler to help reduce noise while driving

CONDUIT CARRIER

Available as an accessory for the G2000 Harrier and the G2000 Maxi

Made of anodized aluminum, the Conduit Carrier is the ideal equipment for loading longer items on the roof. It is 10 feet long with a circumference of 6.3 inches. A basket for retrieving shorter items is available upon request.

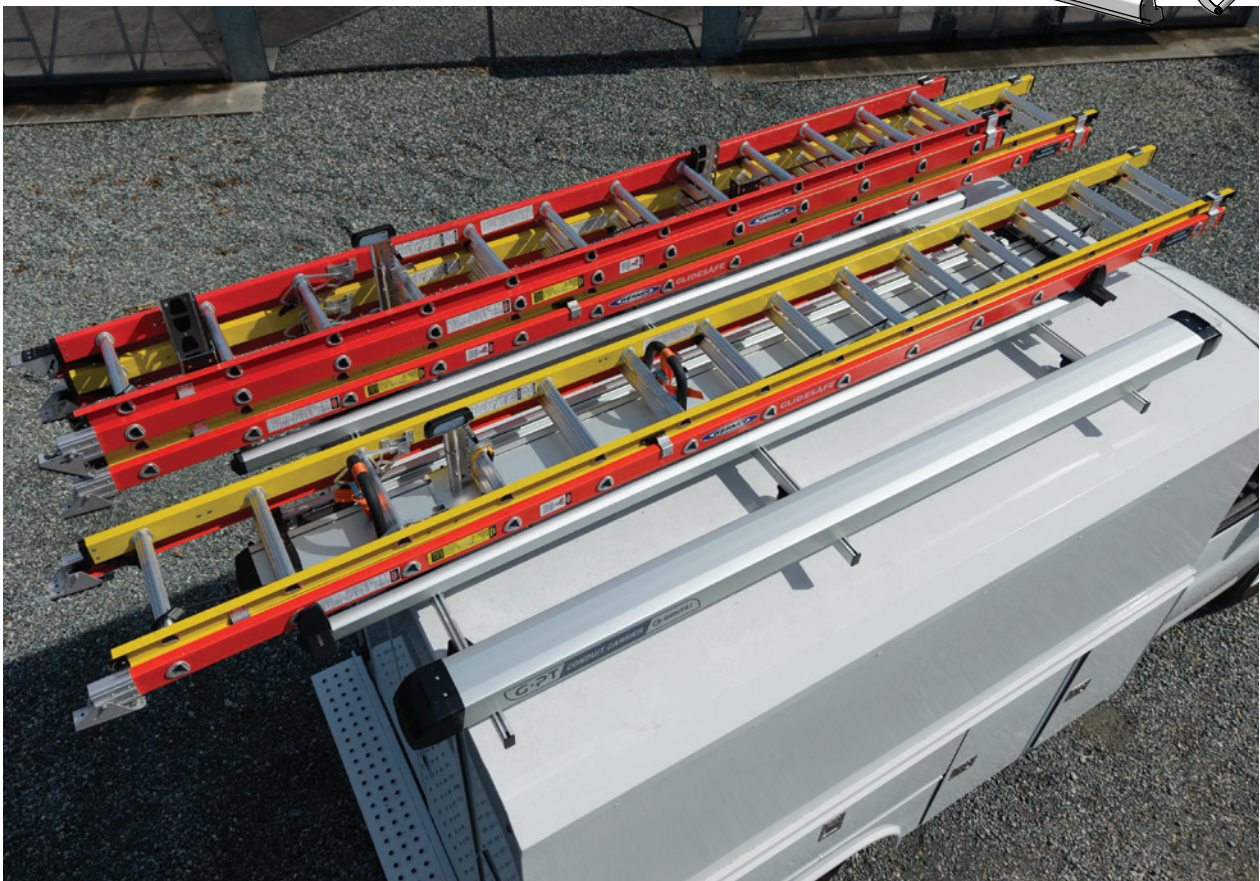

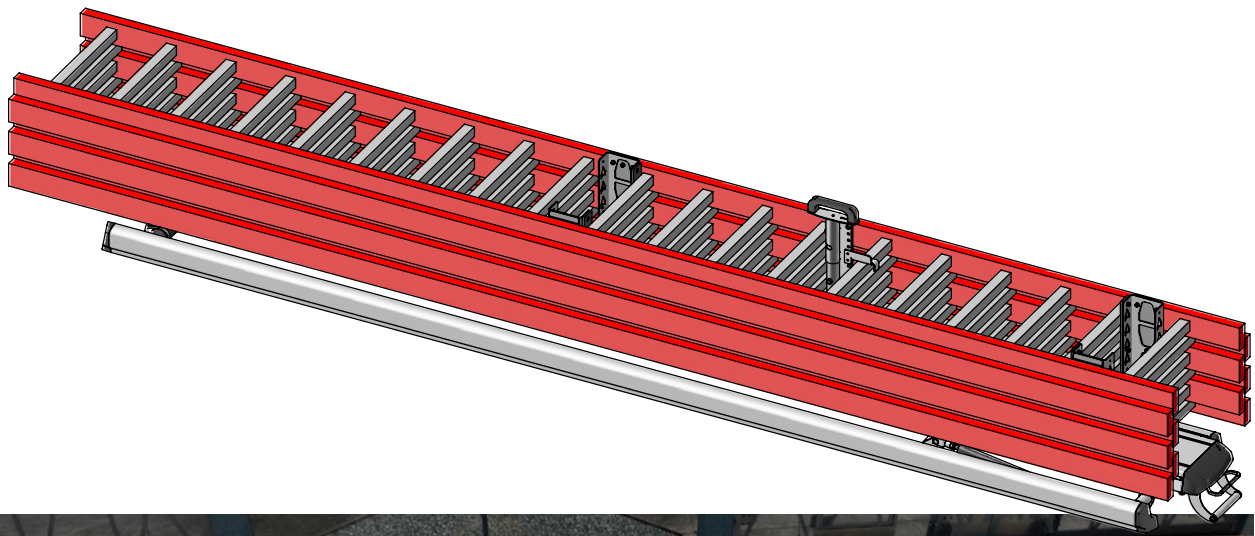

UPGRADE LADDERS SECURE KIT

RSG2HR (2) + BLCG2HR-02 (1)

(2 x ladders)

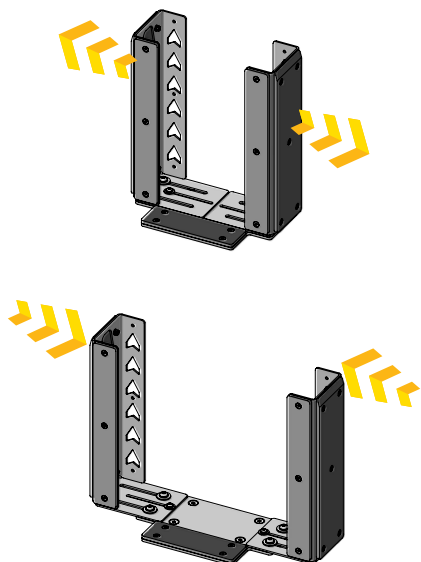

Available as an accessory for the G2000 Harrier

Made of stainless-steel, the Upgrade Ladders Secure Kit consists of two RSG2HRs that are adjustable in width between 11"-17.3" for forward or backward ladders holding from the inside and one BLCG2HR-02 Ladder Lock & Hold Down for holding the ladders upward. The height is adjustable between 7.4" to 14.5" to accommodate multiple ladders. The Ladder Lock & Hold Down is padlock capable to help prevent theft.

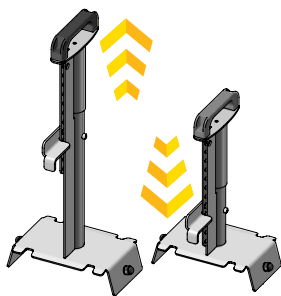

2 x RSG2HR

✱ Padlock not supplied
